### 8 Sonia Almeida at Simone Subal Gallery

**Work on Paper Permanent pen and oil on gessoed paper 50.2 x 35.6 (cm) 19.8 x 14.0 (inch)**

In this new series of paintings and works on paper, Sonia Almeida investigates how shifting models of temporality alter the ways in which society operates. The global quarantine has forced the world to move through time differently, and to question why and how time is normally structured. Almeida incorporates collected images of calendars and mechanisms used to measure time into these new works, and in doing so, emphasizes the uncertainty of constructed timelines.
